
Chuva de Meteoros Perseidas

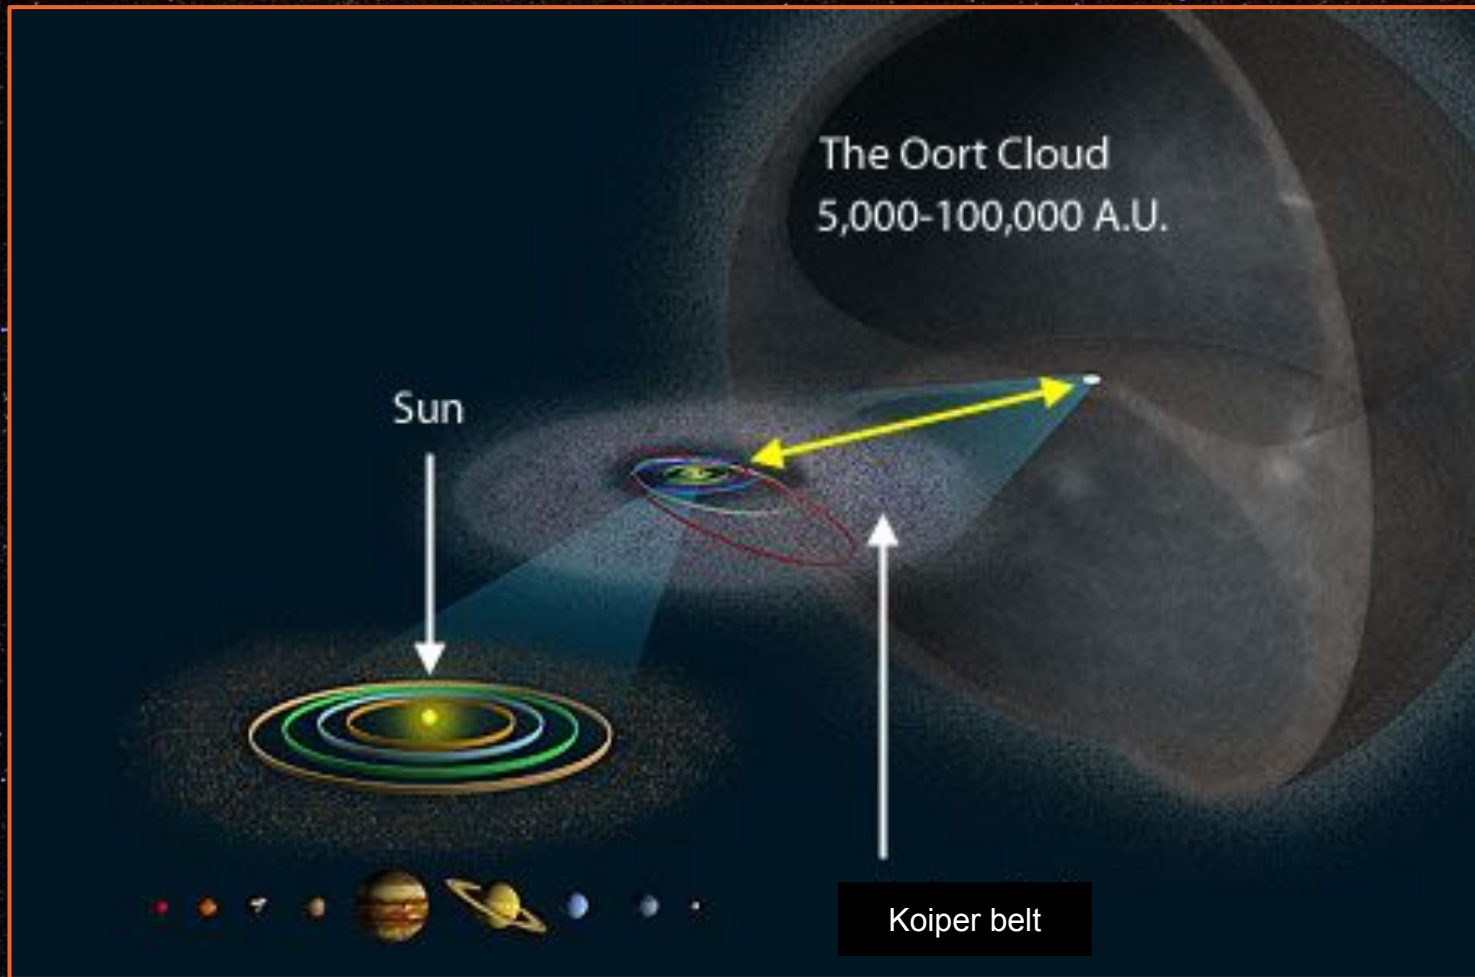

11 de agosto de 2018
Raiana Barboza da Silva
raiana.silva@usp.br

**Formação do
Sistema Solar**

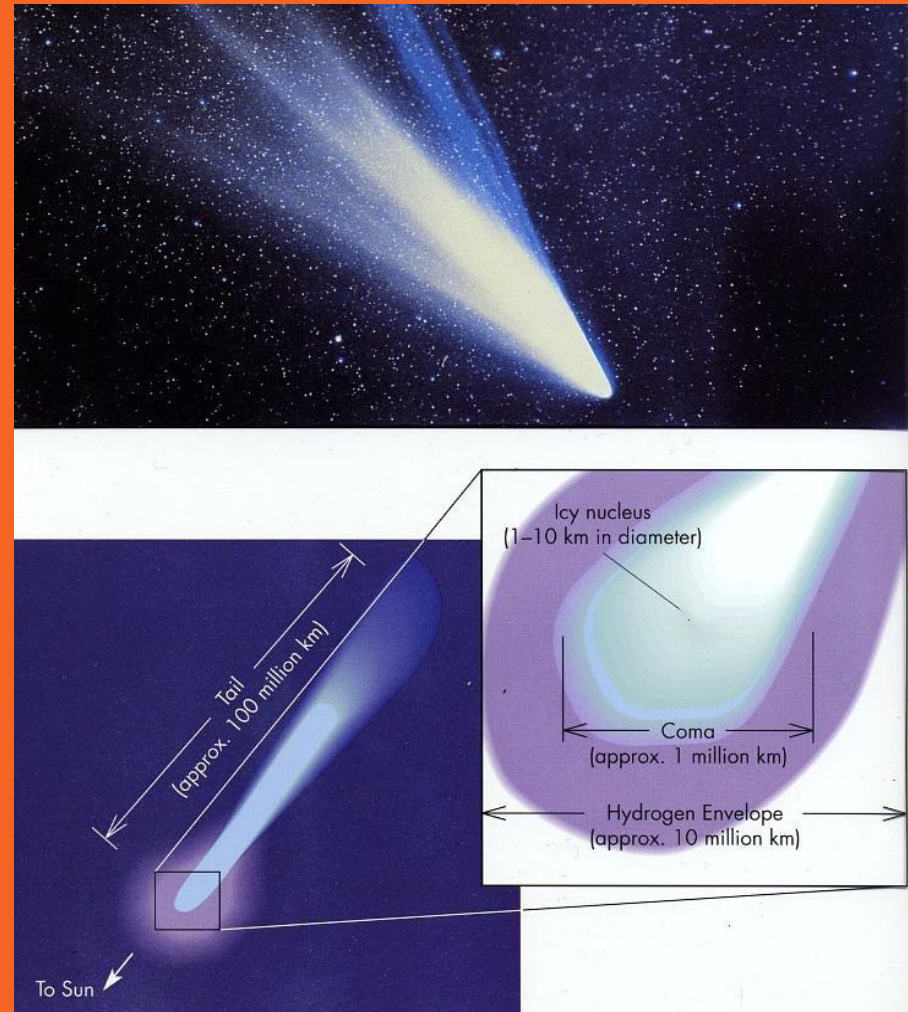

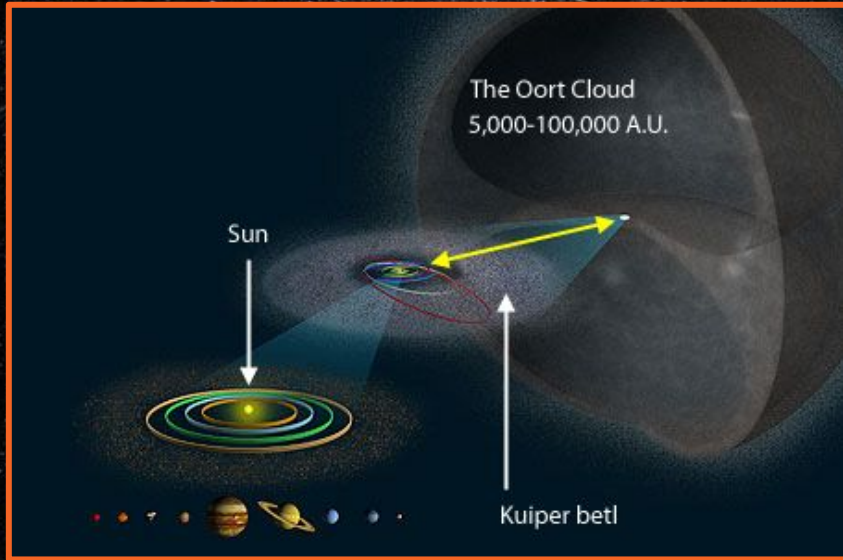

**Mas o que são e
quais as
diferenças?**

Cometas

Cometa 109P/Swift-Tuttle

Comet 109P/Swift-Tuttle in 1992. Credit: Gerald Rhemann via NASA

**Descoberto por
Lewis Swift e Horace
Tuttle em 1862.**

Cometa 109P/Swift-Tuttle

- Núcleo 26km
- Período 133 anos
- Última passagem: 1992
- Próxima passagem: 2126
